

## Spaced Out Sports Playbook Requirements

### Guidelines:

- The playbook should not exceed 10 pages (8 ½ x 11).
- The game should be designed for play in the U.S. Destiny Lab (28 ft. long, 14 ft. wide; volume: 3,938 cubic ft. when empty; usable volume: 1,228 cubic feet)
- The playbook should include these components:
  - General Overview: Briefly describe the game in 2-4 sentences.
  - Game Objects (See List of Game Objects.)
  - Definition of Terms unique to your game in space. (1 sentence per definition)
  - Rules of the Game in space. Include scoring, game periods/timelines, fouls/penalties/violations, and objects used.
  - Game Diagrams that demonstrate how the game is played in space, and explain the science of the game in relation to Newton's 3 Laws of Motion. These diagrams may be used in the video demonstration.
  - Explain if your game can be played on earth. Why/Why not?
